ABOUT THE STATE.

Items of Interest Gleaned From Our
Exchanges.Alphons Hayes of Middletown Springs
was 99 years old July 30.A party of Woodstock young people
recently made a trip to Lake Champlain
on horseback.There will be a county meeting at
Windsor August 8 under the auspices of
the National Good Roads Association.The Newport Driving Club will have
races at Memphremagog park, Newport,
August 28-29. Nearly \$2,000 in pre-
mises is offered.Henry Dixon, the second oldest male
resident of Bennington, was 90 years
old July 30. Mr. Dixon was born in Ire-
land but came to Bennington 60 years
ago.John D. Houghtaling of the staff of
The Middlebury Record, is now on the
Middlebury Register's editorial staff.
Mr. Houghtaling, a native of New York,
has been in charge of the mechanical de-
partments of the American Publishing Co.The Welsh Congregational churches of
Fair Haven, West Pawlet, and Gran-
ville have been granted by the Synod of
New York and Vermont the right to
form a union among themselves and to
hold quarterly meetings. This is an ac-
count of their distance, from the Otis-
ville district churches, but they will be
governed by the same synod as the other
district.During the month of July 22 persons
were committed to the county jail in
Rutland, all for intoxication with the
exception of two, one of whom was in-
dicted for passing worthless checks and
the other for an attempt to commit rape.
At the house of correction there were 53
persons confined for these offenses: In-
toxication, 22; breach of the peace, 13;
criminally child, one; larceny, seven; il-
legal selling of liquor, one; vagrancy,
six; refusing to pay car fare, one; lewd-
ness, one; loitering, one.

Mrs. Jacob G. Ullery.

Jacob G. Ullery, of Brattleboro, re-
ceived a cablegram announcing the death
of his wife in Dresden, Germany. Mrs.
Ullery went abroad four months ago
with her daughter Miss Marshall. She
had been in fairly good health until two
weeks ago, when she was stricken with
a heart attack. Since this time she
had been unconscious. She was born in
Brattleboro in 1859 and was the oldest
daughter of Francis Wolcott and Ma-
tilda Cashman Smith Brooks. In 1883
she married the late Oscar A. Marshall,
cashier of the People's National Bank,
Brattleboro, who died in May, 1893.
Two children of this marriage are liv-
ing. Miss Elizabeth Marshall, who was
with her mother in Dresden, and Oscar
Marshall, who returned from Germany
last June. About ten years ago she mar-
ried Jacob G. Ullery, who is now pub-
lisher of The New England Farmer. One
daughter is left by this marriage, Miss
Matilda Ullery.Mrs. Ullery took a prominent part in
the society life of Brattleboro and was
connected with several patriotic soci-
eties being also one of the four charter
members of the National Society, United
States Daughters of 1812. The body will
be cremated in Dresden and the ashes
will be brought to Brattleboro by Miss
Elizabeth Marshall, who is expected to
start home next Saturday.

N. H. Bank Statistics.

Concord, N. H., Aug. 3.—The state
board of bank commissioners give out a
summary of savings bank reports re-
made to them for the fiscal year ending
June 30, 1906, showing aggregate re-
sources of \$87,639,939, an increase of
about six million dollars. The number
of depositors increased to 104,476, and
their deposits increased to \$5,666,674.

The First Man.

About the middle of the seventeenth
century Isaac de Peyre, in an odd little
volume entitled "The Pre-Adamsites,"
attempted to prove that there were
two creations of man—the first on the
sixth day of the week of creation, when
"God created man male and female." The
rabbi interpreted the above passage of
holy writ as meaning that the first race
of human beings were creatures in which
both sexes were united in the same indi-
vidual. According to de Peyre, Adam was the
result of the second creation, the "male
and female" being living being the pro-
genitor of the gentiles. Adam the fa-
ther of the Jews. A great many peo-
ple fell in with the views of de Peyre,
and he was the first of the Peyreites.
His followers were called "Pre-Adams-
ites," and they increased in numbers
rapidly until finally the movement be-
came so strong that the founder of the
sect was compelled to go to Rome and
abjure his doctrine at the feet of Pope
Alexander VII.

Franklin's Kite Experiment.

Commenting on Benjamin Franklin's
kite experiment, which proved that
lightning and electricity are the same,
a scientist says: "It was one of the
most brilliant examples of luck yet
recorded. To attempt the extraction
of lightning from a lowering sky was
almost suicidal. Even at this late day
thunder occasionally flies to feather
beds, or on glass-legged chairs or into
refuge in rubber boots during thunder-
storms. A repetition of Franklin's ex-
periment cost his immediate imitator his life."

Kept Up the Waiting.

In Abyssinia it was once the habit of
obeyants to stand before the door of
the king's palace, loudly appealing to
his majesty for help. "So accus-
tomed is the king," wrote one traveler,
"to these querulous tones of sorrow
that when the rains prevent such as
are really distressed from replying to
the capital a set of vagrants is pro-
vided whose object it is to raise the
cry of artificial sorrow lest he should
feel a lonely quietness."

Woes at Society Ladies.

There should be an eight hour day
for "fashionable" women. We cannot
talk scandal continuously for twelve
hours a day now. The excitement and
strain upon the imagination are
terrible. Letter to London Truth.

NEW STONECUTTERS UNION.

Branch of National Association Organ-
ized at Proctor.Proctor, Aug. 3.—A journeymen stone-
cutters' union has been organized by
Stuart Reid, organizer of the American
Federation of Labor, Walter V. Price,
an officer of the International Union of
Marble Workers, and J. Frank Manning,
international president of the Journeymen
Stonecutters' union.About 60 men attended the meeting
and an application for a charter will be
made at once, the necessary charter
members being secured.The new union will be known as the
Proctor branch of the Journeymen Stone-
cutters' union of North America. Mr.
Manning stated that in an interview with
Fletcher O. Proctor the latter said that
he would not sanction nor oppose a union
but he gave his word that he would
not discriminate against any union men
in the Vermont Marble Company's works.
The membership of the new stone-
cutters' union is composed of outside
stone workers.

PAINFUL ACCIDENT.

115 Volts Passed Through Body of
Grover Lyons.Burlington, Aug. 2.—A very painful
though not a serious accident occurred
a few days ago in the printing office of
J. H. Livingston.Grover Lyons was repairing the elec-
tric wires that go into the building. He
was standing on a table having hold
with one hand of a gas pipe near by,
when the bare end of a primary wire
touched the forefinger on his other
hand. All the strength of 115 volts went
through his body, holding him so that
he could not let go.He finally succeeded in tearing his
finger from the wire and fell to the floor.
A grove the thickness of the wire, was
burned in the flesh down to the bone.

The Lone Star of Texas.

The origin of the Lone Star flag of the
republic of Texas is not entirely clear.
The claim has been made that it was
unfurled in the present territory of
Louisiana in 1810, but other searchers
cannot find earlier trace of it than the
presentation of such a banner to the
company of Captain Andrew Robinson
in May, 1835. Still another claim is
made for a flag unfurled at Velasco
Jan. 8, 1836, and said to have been
made by a Miss Troutman of Nashville,
Tenn.One story has it that the star came
from the fact that Governor Smith,
for lack of a seal, used a brass button
from his coat which bore a five pointed
star.—St. Louis Republic.

YOUR HAT

May Be a Stylish One, But It Makes
Trouble.A man usually buys a hat that is "in
style," but the modern hat for men has
lots to answer for.Hats are growing more numer-
ous every day. In fashionable circles
breeding places for the parasite germs
which sap the life from the roots of the
hair.When your hair begins to fall out and
your scalp is full of dandruff it is a
sure sign that these countless germs are
busily at work.There is but one way to overcome the
trouble and kill the germs—that way is
to apply Neubro's Herpicide to the
scalp—it will kill the germs and healthy
hair is sure to result.Sold by leading druggists. Send 10c. in
stamp for sample to The Herpicide Co.,

The Size of the Sun.

The sun, provided we measure only
the disk seen with the smoked glass, is
800,000 miles in diameter—1, e. 308
earth's and 100 times as large as earth.
It is surrounded by a ring of gas and
side by side across the disk. To cover
the surface would require many thou-
sands. To fill the interior we should
need 1,800,000. On a smaller scale we
might represent the sun by a ball two
feet in diameter and the earth by a
good sized grain of shot. Let the sun
be hollowed out, then place the earth
at its center and let the moon revolve
about it at its real distance of 240,000
miles. There would yet remain nearly
200,000 miles of space between the
moon's orbit and the inclosing shell of
the sun. Indeed to journey from one
side of the sun to the other, through
the center, would take one of our swift
express trains nearly two and a half
years. So vast a globe must be heavy.
Since its density is only one-quarter
that of the earth it only weighs as
much as 332,000 earths, or two octil-
ions of tons. The attraction of gravity
on its surface would cause a man
whose weight was 150 pounds to weigh
two tons.
